School Council Newsletter – February

School Council here to help

School Council have been investigating how we can help our school community, which fits really well with our value for February.

Stay and Play

School Council have been working hard to support our Stay and Play group of parents and tots that meet on a Thursday morning at school (8.50am to 10.20am). The children have created posters and on Friday we went around Golborne approaching local businesses to see if they would advertise our group.

The librarian was very helpful and is going to place a poster on the Golborne Community noticeboard, as well as one in the library.

School Dinners

School Council have asked the children in their class about our school dinners. It is hard to be able to produce the choice the children would like for so many customers. However, we will look at the feedback the children provided and thank you all for giving your opinions.

Worship Warriors

The Worship Warriors have been working hard with a specialist, Hannah, to learn how to present assemblies. Mr Sparks has been there to help, but the children have proved themselves to be very capable and independent.

Children in school have enjoyed their assemblies, on a Monday, and we would like to say a big well done and keep it up.

Eco Club

Eco Club have been working hard to make our school an Eco school. They are also going to enter the "Wigan In Bloom" competition, to improve the appearance of the village as well as the grounds around school. We will be creating some floral displays as well as permanent planting areas and dealing with the litter.

School council will be offering their support, particularly for the dirty jobs, like litter picking.
